Kids Warned Of Strangers

Mrs. W. H. Farwell, juvenile protection chairman of the 259th Place P.T.A., has brought to the attention of parents two instances of strangers attempting to lure into their cars children walking alone between home and school. She stresses that children should be warned against going with strangers for any reason, and that they should be encouraged to walk to and from school in groups.

Each person living on a street used by children was requested to watch for suspicious persons loitering near or talking to the children. If such persons are observed by a resident, the police should be contacted immediately, and if a car is involved, the license number should be recorded, Mrs. Farwell stated.

COUNTRY DANCE HAS NO SPECIAL REFERENCE TO THE COUNTRY

DANCE TONITE

A "Country Dance" Has No Special Reference to the Country!

The word "country" in this respect is a corruption of the Latin "contra," meaning opposite, and refers to the arrangement of partners in lines facing one another.

You'll feel like dancing in the streets, once you have put into effect a carefully worked out insurance program. Stop in and see us before another week rolls around.
